PUBLIC SPEAKING MASTERY

Workshop Details

Public Speaking Mastery Overview

- Realizing the need for better communication skills in the corporate world, this workshop is specifically designed for improving public speaking skills. Instead of theoretical class room sessions, more emphasis is given for hands on activities.

Why Public Speaking Mastery Now?

- Today every organization is looking for people who can freely communicate without any inhibitions. In fact, communications skills are given more importance than technical skills. People need to know how to make an effective presentation in the given time and also make a memorable impact among the audience. People who are able to impress upon through their communications skills in the team meetings and interviews get better career progress and opportunities.

Workshop Methodology

- Workshop would be conducted through interactive class room sessions using Slide decks, Multi-media Video Clippings, Case studies, Interactive Games, and other relevant props.
